

IC Specifications

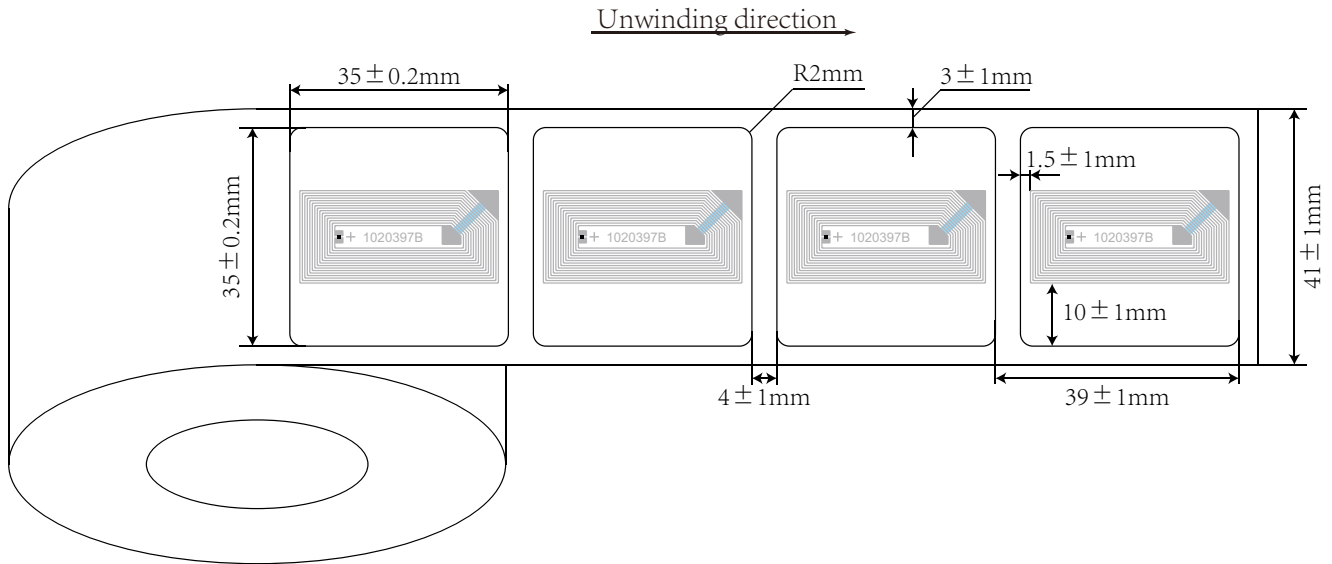

- IC Protocol:ISO/IEC 15693
- ISO Typical Operating Frequency:13.56MHz
- Chip:SLIX2
- User Memory:2560 bits
- Operating Temperature:-40°C/+85°C
- Storage Temperature:-55°C/+125°C

Antenna Design

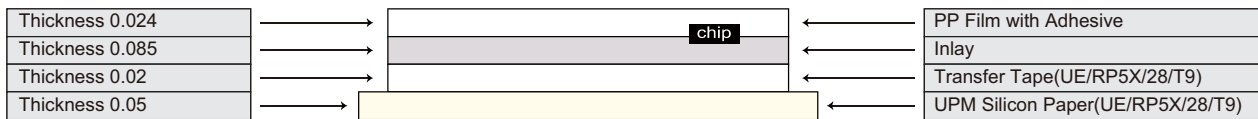

- Aluminum Etching/30 μm
- Substrate: PET/38 μm
- Aluminum Etching/10 μm

Wet Inlay Layout and Dimensions

Wet Inlay Composition

Packaging

	2,000 pcs/roll with 3" core 1 meter leading silicon paper at the beginning and ending of roll
	1 roll/inner case 200*200*68mm/2 gaskets Φ195*3mm
	8 inner cases/master ctn 430*220*305mm
